Jordan,

If you're looking at the Ch. 70 District Profiles spreadsheet on the DESE website, the FY25 NSS figures are what each district budgeted towards NSS, not the actuals. The actuals won't be out until all EOYRs are audited, and amendments are done. If you want your actual NSS for FY25, look at the "Reports" tab on the EOYR file. You will find it in the first section, on Line 28. This will back out all of the gray colored functions from your EOYR, but it will also back out budgeted district-generated general fund revenues, along with the facilities portion

of charter school reimbursement. At least that's what I had to back out to get to the number on my Reports tab.

Hi Jordan

Anything that is in gray on the EOYR is not included in the NSS calculation. Feel free to call me and I can walk you through it

Thanks

Subject: Chapter 70 NSS data?

Good Afternoon, I am trying to tie my EOY report data to the chapter 70 actual net school spending for FY25. Does anyone know what lines in the EOY report are used to get the "actual nss" number?- or what is not included.... any help would be appreciated... thank you.

Respectfully,

Jordan Geist
