Subject: Fwd: Finance Committee / OML Complaint RE 12/9/25 meeting

Dear Open Meeting Law office,

Please confirm your receipt of this email sent to you on Mon, Apr 6 and also my prior email to you at approx Sun, Apr 5, 8:05 PM. This forwards the original email with Complaint and supporting documents as submitted to the City of Malden. It is unclear to me if the OpenMeeting Office ever received a copy of the original complaint.

I am unable to tell from my record if Attorney Mooney ever sent you a copy of the original complaint and the supporting documents submitted along with that complaint. However, I am aware that on December 23rd, Attorney Mooney did send an email to Malden News Network indicating "Forwarding this email again as it just came back as undeliverable to Malden News Network."

I am requesting further review of the City of Malden's delayed response, and its extension of time used in responding to this complaint. Apparent delays in delivery of communications also add to demonstrated good cause for any delay in your receipt of request for further review, or any delay in your initiation of further review.

As additional good cause for your review, the magnitude of recent events related to Malden's tax override special election which was the subject of the original meeting Complaint, and the post election revelation on April 2nd of alleged inaccuracies and accounting flaws in information used in this

unannounced discussion, justify further review by your office.

Thank you.

Brian DeLacey

Please accept this simple Open Meeting Law Complaint which alleges that Malden's Finance Committee violated Open Meeting Law with their 12/9/25 public body meeting Notice.

The complaint alleges the Finance Committee failed to list discussed topics with sufficient specificity on its meeting notice. A fuller narrative and attachments are added for support.

Thank you.

Sincerely,

Brian DeLacey,
